UM Campus Climate Survey

QUESTIONNAIRE SPECIFICATIONS

Welcome Page

The University of Michigan (UM) is committed to providing a campus environment free from sexual misconduct, including sexual harassment, sexual assault, stalking, and intimate partner violence. The purpose of this questionnaire is to assess the campus climate and culture in relation to sexual misconduct, including the experiences of students and the degree to which students feel safe and respected, particularly in regards to issues of sexual misconduct. We are interested in learning more about students' knowledge and satisfaction related to UM resources and policies. The data we collect will be used to improve campus response, intervention, and prevention efforts of the campus community.

This survey is completely voluntary. Your responses are strictly confidential and will not be part of any academic, medical, or disciplinary record. No individually identifiable information will be reported. You do not have to participate in this survey, and if you do choose to participate, you may skip any question you are not comfortable answering and may exit the survey at any time. Completing the questionnaire should take about 15 minutes.

NOTE: Some of the questions in this survey use explicit language, including anatomical names of body parts and specific behaviors, to ask about sexual situations. This survey also asks about sexual misconduct, including sexual harassment, sexual assault, stalking, and intimate partner violence, which may be upsetting. If you would like to talk to someone confidentially about questions or concerns relating to sexual misconduct, including sexual assault, please contact the Sexual Assault Prevention and Awareness Center (SAPAC) – <http://sapac.umich.edu> or the Michigan Counseling and Psychological Services (CAPS) – <http://caps.umich.edu/counseling>.
